

Manual de Montaje

MURANO

Cerramiento de Cristal

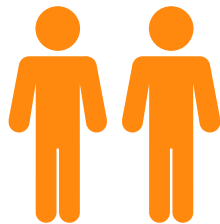

SUN
STOP

Antes de Empezar

La instalación necesita ser realizada por al menos dos personas.

NO QUITAR LAS PROTECCIONES HASTA FINALIZAR LA FIJACIÓN COMPLETA.

Antes de comenzar el montaje, revise que todas las piezas están incluidas en la caja. La tornillería de fijación a pared o techo no está incluida. Consulte a su proveedor de confianza el producto más adecuado para garantizar la óptima fijación según sus necesidades.

No dejar al alcance de los niños las bolsas de plástico para evitar asfixia. Mantener el cerramiento en posición horizontal durante todo el proceso de instalación, y mantener este en un espacio limpio evitando así la suciedad o posibles arañazos sobre la estructura de aluminio.

Evitar la instalación en lugares expuestos a viento fuerte.

Antes de perforar la superficie, asegúrese de que el lugar donde el cerramiento será instalado cuenta con el suficiente espacio para ello, y además verifique que la zona está libre de tubos de gas, agua o cables eléctricos.

Contenido

1 Caja Perfiles

Guía superior x1

Riel inferior x1

1 Pallet de vidrios

Hoja x4

1 Caja de accesorios

50260017 (Pomo cristal 2v con junta) x1
